

# Nandini Patil

As a frontend developer with a strong foundation in JavaScript, HTML, CSS, and React, I am eager to apply my skills and knowledge in a professional setting. I have a enough understanding of security practices and enough agile development methodologies, and am committed to creating high-quality, user-friendly products that meet the needs of both clients and end-users. During my studies at JENSEN yrkeshögskola Göteborg, I completed several frontend projects that have equipped me with practical skills and knowledge that I believe will be invaluable in my career. These projects have allowed me to develop my ability to write clean, efficient code, as well as to collaborate effectively with others in a team setting.

With a finance degree and a passion for frontend development, I bring a unique blend of analytical and creative skills to my work. I am able to quickly identify and solve problems, and am dedicated to delivering projects on time and to the highest standards.

I am excited about the opportunity to join a dynamic and innovative team, where I can continue learning and growing as a developer during my internship.

## Work experience

**Förskoleassistent**

Mar 2021 - Present

*Förskoleförvaltning*

Upon relocating to Sweden, I was determined to acquire fluency in the Swedish language. To achieve this, I completed several levels of Swedish language courses and enrolled in a preschool program under the guidance of Språkpatrik. This immersive experience has been highly rewarding, allowing me to acquire new language skills and gain a deeper understanding of the culture and traditions of this remarkable country

## Education and Qualifications
